

AHD	= Advanced HIV Disease	FAC-PUP	= Facility pick-up point
EX-PUP	= External pick-up point	RPCs	= Repeat Prescription Collection Strategies

** All clients returning to care after > 90 days, and who were previously on TEE, TLD, or a PI-based regimen, should re-initiate a DTG-containing regimen. Clients who became LTFU on third-line should re-initiate their third-line regimen

*** Where the patient is overdue for their routine assessment at return, only perform the assessment once the patient has taken treatment for 3 months (or if in RPCs, the closest clinical review date thereafter).
